

# INTERNATIONAL LAW PLUS 2025

AI AUTONOMY AND HUMAN RESPONSIBILITY;  
NORTH-SOUTH PERSPECTIVES ON POWER,  
JUSTICE AND EQUITY

INFOVERANSTALTUNG AM  
8.1.2025, 14:00, EG 17

We're excited to offer a **Trilateral IL+ Summer School Program** in 2025 together with the University of Pretoria, South Africa and with the Universidad de Chile in Santiago, Chile!

The 2025 program aims to engage in a comprehensive exploration of how AI technologies intersect with pressing issues of power dynamics, social justice, and equity, especially through the lens of Global South countries, which face challenges and opportunities of their own in this rapidly evolving field. As AI systems increasingly influence decision-making processes across various sectors, including healthcare, education, and criminal justice, it is paramount that future legal professionals comprehend the multifaceted consequences of these technologies.

You decide whether you want to travel to Pretoria in April 2025 or to Santiago de Chile in May 2025. You'll visit the respective partner university for ten days. The return visit of South African and Chilean students to Hamburg will take place in September 2025, bringing all participants together. Between April/May and September you will work online along with your international tandem partner on a position paper.

## BENEFITS FOR YOU:

- Seminar certificate (**Seminarschein**) or language certificate (**Fremdsprachenschein**)
- Exciting lectures on international and national topics
- Workshops on writing, presenting, etc.
- Strengthening of intercultural skills
- The entire program is conducted in English. Improve your English skills!
- **600 €** scholarship for the trip
- If you are in need of further financial support, please contact the International Office
